

# VENTILATOR CHALLENGE | UK

Russell Laboratories have been selected as part of the **VentilatorChallengeUK** consortium of companies in a nationwide effort to support the NHS in their fight against COVID-19.

**VentilatorChallengeUK** have been tasked with the design and manufacture of a medical ventilator critical to supporting patients suffering from this disease.

Russell Laboratories have been chosen to provide surface treatment services for 3 critical parts and this will commence immediately with the aim of mass production until notified otherwise.

“Every ventilator produced is a life saved”

Everyone at Russell Labs should be proud to be playing a part in this vital endeavour.
